

Sheffield Linux User's Group

Our next meeting will be on the 14th of April. Rusty Russell is flying in from Oz to give us a talk on the 2.4 kernel code and related issues. Rusty is well known for his abilities with a keyboard.

Rusty is best known as packet filter maintainer for the Linux Kernel. Most recently, he created a generic packet filtering architecture "netfilter", on top of which he implemented a new packet filtering and full NAT systems. His many distractions include editing the File Hierarchy Standard 2.2, writing Rusty's Unreliable Guides, and the Linux Graphing Project.

The meeting will take place at Blackwell's at 156-160 West Street. For bus, train or tram info phone 01709 515151. Start time is about 1 p.m. and finish about 16.00. If you wish to ask questions then please send mail to enquiries@sheflug.co.uk

For more info about the meeting you might want to have a look at our web site at....
